

DATA SHEET

FOIL HEATER UNDER LAMINATE AND CARPET

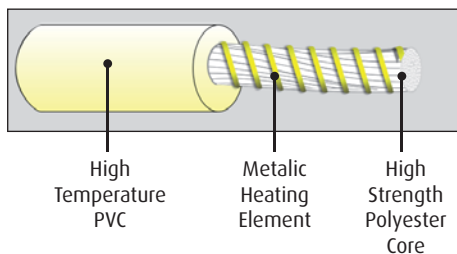

ULS Series

The Warmup® Foil Heater is a streamlined electric radiant floor heating system designed for use under carpet, laminate, cork, engineered wood and other floating floors. The square and rectangular sheets can be combined in parallel for installation under the floor finish.

- Ideal for Carpet and Laminates
- Installs between the padding and the floor material
- Available in 120V and 240V
- Up to 240 sq ft of coverage per controller
- Even distribution of heat with unique foil system
- Fully grounded, foil-laminated
- Can withstand carpet cleaning and minor flooring incidents
