

### PRODUCT CODE

RELAY 4x30

### PRODUCT DESCRIPTION

The RELAY 4x30 are 4 x 30A-2P 240V relays in NEMA1 enclosure.

Suitable to extend amperage capacity of stand-alone controls, they are designed to work with the 3iE Energy-Monitoring, 4iE Smart WiFi and Warmup outdoor controls.

### SPECIFICATIONS

Max load	120Amps/240V
Made in	USA
Approvals	cULus

### APPLICATION

The RELAY 4x30 from Warmup houses four 30A/240V 2-pole relays.

When combined with a Warmup indoor or outdoor controller, it allows for additional amperage to be switched by that controller. The 240V coil of the relays are activated by the load side of the Warmup controllers.

#### INDOORS

Compatible with the 3iE®, 4iE® and DUALUDG-4999® thermostats from Warmup, the RELAY 4x30 is ideal to connect larger floor heating applications to a single thermostat. It can handle up to 2,000 sqft of heated floors.

#### OUTDOORS

Compatible with all Warmup outdoor controllers when powered at 240V. Ideal for larger snow melting applications and roof deicing jobs requiring more than the traditional 30 Amps (DS-2C and DS-8C) or 60 Amps (DS-5C) available.

### WIRING

### WARRANTY & MAINTENANCE

When installed according to the installation manual, the RELAY 4x30 is covered with Warmup's 1-year manufacturer warranty.

### TECHNICAL SUPPORT

Warmup is available 24/7/365 at (888) 927-6333.
