

# Easy Programmable Thermostat

*EZPT-04-WH*

The Warmup Easy Programmable Thermostat is an electric underfloor heating thermostat with 7-day scheduling for simple, effortless heating control.

## Overview

The Easy Programmable Thermostat is a 7-day scheduling thermostat designed for electric underfloor heating. Split into 2 or 4 daily programs, 7 days a week, the thermostat has been created with simple and easy functionality in mind.

A 3.5 inch interactive colour touch screen display, backlit so it can be read in varying lighting conditions for easy setup and usability.

It's dual sensing and multiple operating modes satisfy any user's needs and allows different temperatures and running times to be set, to help reduce energy consumption.

With intelligent energy-saving controls including Preheat and Open-Window Detection to provide the user with maximum comfort and efficiency.
